PART I - FINANCIAL INFORMATION

Item 1. Financial Statements

The unaudited condensed consolidated interim financial statements as at March 31, 2021, (with comparative audited consolidated statement of financial position as at December 31, 2020), and for the three months ended March 31, 2021 and 2020, and the accompanying notes to the unaudited condensed consolidated interim financial statements of CEMEX Holdings Philippines, Inc. and its Subsidiaries are filed as part of this Form 17-Q as Appendix I.

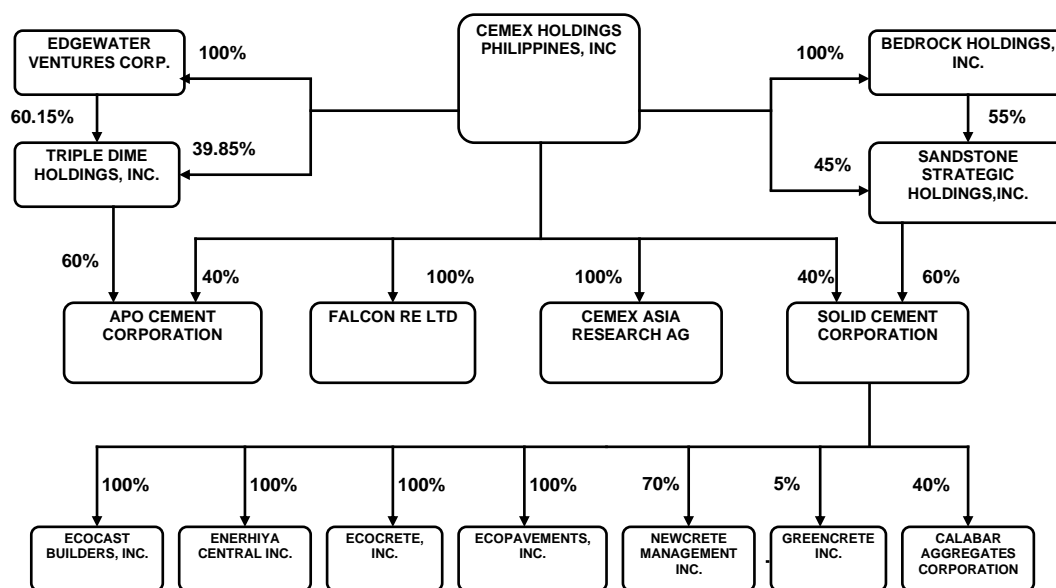

The term “Parent Company” used in this report refers to CEMEX Holdings Philippines, Inc. without its Subsidiaries. The term “Company” refers to the Parent Company together with its consolidated Subsidiaries.

On a consolidated group basis, the Parent Company is an indirect subsidiary of CEMEX, S.A.B. de C.V. (“CEMEX”), a company incorporated in Mexico with address of its principal executive office at Avenida Ricardo Margáin Zozaya #325, Colonia Valle del Campestre, Garza García, Nuevo León 6625, México.

On January 1, 2016 the Parent Company acquired, directly and indirectly through intermediate holding companies, a 100% equity interest in each of Solid Cement Corporation (“Solid Cement”) and APO Cement Corporation (“APO Cement”). Solid has several subsidiaries. The Company also includes CEMEX Asia Research AG (“CAR”), a wholly-owned subsidiary incorporated in December 2015 under the laws of Switzerland. Pursuant to license agreements that CAR entered into with CEMEX Research Group AG (“CRG”) and CEMEX, respectively, CAR became a licensee for certain trademarks, including the CEMEX trademark, and other intangible assets forming part of the intellectual property portfolio owned and developed by CRG and CEMEX. CAR is engaged primarily in the development, maintenance and customization of these intangible assets for the Asia Region and it in turn provides non-exclusive licenses to Solid Cement and APO Cement to use the CEMEX trademark and other trademarks and intangible assets of CEMEX.

In May 2016, the Parent Company incorporated a wholly-owned subsidiary named Falcon Re Ltd. (‘Falcon’) under the Companies Act of Barbados. Falcon is registered to conduct general insurance business, all risk property insurance, political risks insurance and non-damage business interruption insurance, and received its license to operate as an insurance company in July 2016. Falcon acts as a re-insurer to the extent of 10% of the risks associated with property insurance coverage and 100% of the risks associated with political violence and non-damage business interruption programs, professional liability program and cyber risks for the operating subsidiaries of the Parent Company.

The following diagram provides a summary of the Company’s organizational and ownership structure as of March 31, 2021:

On July 18, 2016, the Parent Company’s initial public offering (‘IPO’) of 2,337,927,954 common shares at P10.75 per share culminated with the listing and trading under the Main Board of the Philippine Stock Exchange of all of the outstanding shares of capital stock of the Parent Company consisting of 5,195,395,454 common shares.

During the first quarter of 2017, the remaining balance of the proceeds from the IPO were used in the first quarter of 2017 to partially repay amounts outstanding under the long-term loan with New Sunward Holding B.V. (“NSH Long-term Loan”). New Sunward Holding B.V. is a subsidiary of CEMEX.

On February 1, 2017, the Parent Company signed a senior unsecured peso term loan facility agreement with BDO Unibank, Inc. for an amount of up to the Philippine Peso equivalent of US\$280 Million (“BDO Refinancing Loan”), to refinance a majority of the Parent Company’s outstanding balance due under the NSH Long-term Loan. Following its availment of the BDO Refinancing Loan, the Parent Company completely repaid the NSH Long-term Loan.

On April 2, 2019, the Board of Directors approved the increase in the Parent Company’s authorized capital stock (“ACS”) from P5,195,395,454 divided into 5,195,395,454 Common Shares with par value P1.00 per share, of which 5,195,395,454 Common Shares are issued and fully paid-up, to P18,310,395,454 divided into 18,310,395,454 Common Shares with a par value of P1.00 per share. This increase was authorized by the Parent Company’s shareholders owning more than 2/3 of the total issued and outstanding capital during a special meeting of stockholders held on October 16, 2019. Following said special stockholders’ meeting, the Parent Company initiated the corresponding processes with the SEC and the PSE for a stock rights offering (“Stock Rights Offering”) for the purpose of raising the equivalent in Philippine Peso of up to US\$250 million.

On December 11, 2019, the SEC issued a Notice of Confirmation of Exempt Transaction, confirming that the Stock Rights Offering is exempt from the registration requirements of the Securities Regulation Code of the Philippines and the board of directors of the PSE approved the Parent Company’s application for listing of the shares to be offered in the Stock Rights Offering, subject to the fulfillment of certain listing conditions, such as but not limited to the Parent Company having obtained the SEC’s approval of the increase in the company’s authorized capital stock.

On January 6, 2020, the Parent Company announced that the Stock Rights Offering would involve the offer of 8,293,831,169 common shares with a par value of par value P1.00 per share (the “Rights Shares”) at an offer price of P1.54 per Rights Share that would be issued from the Parent Company’s increased ACS. The proceeds from the Stock Rights Offering would be used primarily to fund the expansion of Solid Cement’s plant in Antipolo City (the “Solid Expansion Project”), including (i) to pay outstanding amounts owed by Solid Cement under a revolving credit facility agreement dated November 21, 2018, as amended and restated from time to time, between Solid Cement, as the borrower, and Cemex Asia B.V. (“CABV”), as the lender (the “Solid Expansion Facility Agreement”), which facility agreement has been used primarily but not exclusively to fund the Solid Expansion Project, including (ii) to pay outstanding amounts owed by APO Cement under a master loan agreement dated October 1, 2014, as amended and restated from time to time, between APO Cement, as borrower, and CABV, as lender (the successor to CEMEX Hungary KFT) (the “APO Operational Facility Agreement”), and for other general corporate purposes.

The offer period for the Stock Rights Offering was concluded on January 24, 2020. The total proceeds raised from the Stock Rights Offering amounted to P12,772,500,000.26.

On 27 February 2020, the SEC approved the Parent Company’s application for increase of ACS and on 4 March 2020, the 8,293,831,169 common shares comprising the Rights Shares were listed under the Main Board of the Exchange.

After the Stock Rights Offering and the approval by the SEC of the Parent Company’s application for increase in authorized capital stock, the Parent Company’s issued and outstanding shares totaled 13,489,226,623 common shares.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following is a discussion and analysis of our unaudited condensed consolidated interim financial statements as at (with comparative audited consolidated statement of financial position as at December 31, 2020) and for the three months ended March 31, 2021 and 2020, and included herein, and should be read in conjunction with appendix I of this report. Also included is a discussion on certain trends, risks and uncertainties that may affect our business.

Financial Performance

For the three months ended March 31, 2021 and 2020:

Revenues

Revenues for the three months ended March 31, 2021 and 2020 amounted to P5.2 billion and P5.6 billion, respectively. Revenues was generated mainly from sale of cement products as a result of the Company’s ordinary activities. The revenues decreased by P427.7 million or 7.6% mainly due to 4% decrease in domestic cement volumes, amidst the ongoing COVID-19 pandemic and its impact to economic activity. Furthermore, 4% decrease in domestic cement prices mainly driven by higher proportion of pick-up sales. Net of freight charges, our domestic cement prices decreased by 1% year-over-year due to subdued activity and competitive market dynamics.

The breakdown of revenue after elimination of transactions between consolidated entities were as follows:

Segment	For the three months ended March 31,			
	2021		2020	
	Amount*	% Sales	Amount*	% Sales
Cement sales	P5,194	99.8%	P5,628	100.0%
Other businesses	8	0.2%	2	0.0%
Total	P5,202	100.0%	5,630	100.0%

*Amounts in millions

Cost of Sales

Cost of sales for the three months ended March 31, 2021 and 2020 amounted to P3.2 billion and P3.3 billion. Cost of sales represents the production cost of goods sold. Costs arose mainly from power and fuel consumption, raw materials and supplies used during production, depreciation, and other expenses directly attributable to the manufacturing of finished goods. The decrease of P96.5 million or 2.9% is mainly attributable to the decrease in our sales volume. Also, fuel cost was 18% lower on a year over year basis mainly due to the use of a more cost-efficient fuel mix. Power cost was 14% higher on a year-over-year basis mainly due to higher electricity rates, and a rebate from the wholesale electricity spot market last year. Cost of sales as a percentage of revenues for the three months ended March 31, 2021 and 2020 were at 61.1% and 58.2%, respectively.

Gross Profit

As a result of the above conditions, gross profit for the three months ended March 31, 2021 and 2020 reached P2.0 billion and P2.4 billion, respectively. Gross profit as a percentage of revenues for the three months ended March 31, 2021 and 2020 were at 38.9% and 41.8%, respectively.

Operating Expenses

Operating expenses amounted to P1.5 billion and P1.8 billion for the three months ended March 31, 2021 and 2020, respectively. Operating expenses pertain to administrative, selling, and distribution expenses. Operating expenses decreased by P284.2 million or 15.5% and as a percentage of revenues for the three months ended March 31, 2021 and 2020 were at 29.8% and 32.6%, respectively. The movement was due to the following items:

- Administrative and selling expenses amounted to P719.2 million and P767.5 million for the three months ended March 31, 2021 and 2020, respectively. The decrease of P48.3 million or 6.3% mainly due to lower fees related to royalties and the Parent Company's Stock Rights Offering, which was concluded during the first quarter of 2020.
- Distribution expenses amounted to P829.9 million and P1,065.8 million for the three months ended March 31, 2021 and 2020, respectively. The decrease of P235.9 million or 22.1% was driven by lower delivered volumes and initiatives to increase efficiency.

Operating income before other income - net

For the reasons discussed above, operating income before other expenses, net amounted to P473.8 million and P520.8 million for the three months ended March 31, 2021 and 2020, respectively. These comprised of 9.1% and 9.3% of revenues, respectively.

Other income - net

Other income, net amounted to P38.1 million and P12.1 million for the three months ended March 31, 2021 and 2020, respectively. The increase of P26.0 million or 214.8% and as a percentage of revenues for the three months ended March 31, 2021 and 2020 were at 0.7% and 0.2%, respectively. This was mainly from the recovery of the previously written-off receivable from a related party.

Financial and Other Financial Expenses - net

Financials expenses and other financial expenses - net amounted to P62.6 million and P279.5 million for the three months ended March 31, 2021 and 2020, respectively. This mainly pertains to the cost incurred by the Company from borrowing. Financial and other financial expenses - net decreased by P217.0 million or 77.6% and as a percentage of revenues for the three months ended March 31, 2021 and 2020 were at 1.2% and 5.0%, respectively. The movement in the account was due to the following: Solid Expansion Facility Agreement and APO Operational Facility Agreement were settled in March 2020, lower debt levels from the BDO Refinancing Loan long-term loan, and declining variable interest rates year-over-year.

Foreign Exchange Loss - net

Foreign exchange loss - net amounted to of P71.0 million and P66.4 million were reported for the three months ended March 31, 2021 and 2020, respectively. The increase of P4.6 million or 7.0% was due to revaluation of foreign currency denominated financial instruments.

Income Tax Expense

Our income tax expenses for the three months ended March 31, 2021 and 2020 amounted to P172.8 million and P97.9 million, respectively. Income tax expenses was higher by of P75.0 million or 76.6% and as a percentage of revenues for the three months ended March 31, 2021 and 2020 were at 3.3% and 1.7%, respectively. This was mainly due to the enactment of the Corporate Recovery and Tax Incentives for Enterprises (CREATE) Act which was approved into law on March 26, 2021. Whereas the reduction of the corporate income tax from 30% to 25% and the minimum corporate income tax (MCIT) is reduced from 2% to 1% from July 1, 2020 until June 30, 2023. The retroactive application of the new income tax rates also resulted in a one-time adjustment to current income tax and to account for the revaluation of the deferred income tax account. The impact of the CREATE are disclosed in Note 18 to the condensed consolidated interim financial statements.

Profit

As a result of the abovementioned concepts, profit for the three months ended March 31, 2021 and 2020 amounted to P205.5 million and P89.1 million, respectively. Profit as a percentage of revenues for the three months ended March 31, 2021 and 2020 were at 3.9% and 1.6%, respectively

Financial Position

As at March 31, 2021 and December 31, 2020:

Cash and Cash Equivalents

Cash and cash equivalents amounted to P6.1 billion as at March 31, 2021 and December 31, 2020, respectively. The cash and cash equivalents pertain to cash in bank and short-term investments of the Company with local banks and related parties. Cash and cash equivalents decreased by P75.0 million or 1.2% and accounted for as 9.6% of total assets as at March 31, 2021 and December 31, 2020. This pertains to the net movement in the increase in cash due to the increase in trade collections and decrease in short-term investments.

Trade Receivables - net

Trade receivables, which mainly pertain to receivables from customers, amounted to P896.7 million and P700.2 million as at March 31, 2021 and December 31, 2020, net of allowance for impairment losses amounting to P27.1 million and P26.7 million, respectively. Trade receivables - net increased by P196.5 million or 28.1% and accounted for as 1.4% and 1.1% of total assets as at March 31, 2021 and December 31, 2020, respectively. This was due to the increase in the volume of cement sold on credit of the Company.

Related party balances

Due from related parties amounted to P7.1 million and P3.8 million as at March 31, 2021 and December 31, 2020, respectively. The due to related parties amounted to P1.5 billion as at March 31, 2021 and December 31, 2020, respectively. The related party balances pertain to service fees, advances between related parties, sale/purchase of goods, management, and license fees, among others.

The due from related parties increased by P3.3 million or 87.6% and accounted for less than 0.1% of total assets as at March 31, 2021 and December 31, 2020, respectively. This was mainly due to the receivable from CEMEX related to the hedge settlements.

The due to related parties decreased by P39.6 million or 2.6% and accounted for as 7.3% and 7.5% of total liabilities as at March 31, 2021 and December 31, 2020. This was due to the net movement of lower payable related to royalties and higher payable due to increase in trade related transactions.

Insurance Claims and Premiums Receivable

Insurance premiums receivable, which amounted to nil and P86.4 million as at March 31, 2021 and December 31, 2020, respectively, is related to non-damage business interruption insurance receivable from third-party insurance company. The premiums receivable represents premiums on written policies which are collectible within the Company's credit term. Claims from insurance amounted to nil million and P1.1 million as at March 31, 2021 and December 31, 2020, respectively. Insurance claims and premiums receivable decreased by P87.6 million or 100.0% and accounted for as less than 0.1% and 0.1% of total assets as at March 31, 2021 and December 31, 2020, respectively, was mainly from the collection of the whole amount of the insurance claims and premiums receivables.

Other Current Accounts Receivable

Other current accounts receivable, which pertains to receivable from contractors and employees, short-term deposits, and others, amounted to P35.4 million and P43.7 million as at March 31, 2021, and December 31, 2020, respectively. Other current accounts receivable decreased by P8.3 million or 19.0% and accounted for as 0.1% of total assets as at March 31, 2021 and December 31, 2020. This was due to the collection from contractor.

Inventories

Inventories amounted to P2.2 billion and P2.3 billion as at March 31, 2021, and December 31, 2020, respectively. Inventories consisting of raw materials, cement and work-in-process amounted to P1.1 billion and P1.4 billion as at March 31, 2021, and December 31, 2020, respectively, and the remaining balance pertains to spare parts. Inventories decreased by P143.4 million or 6.1% and accounted for as less than 3.5% and 3.7% of total assets as at March 31, 2021 and December 31, 2020, respectively. This was mainly due to the higher cement sales resulting to lower inventories.

Derivative assets

Derivative assets amounted to P41.5 million and P24.0 million as at March 31, 2021, and December 31, 2020, respectively. The Company entered an agreement with CEMEX to confirm that the company will bear all the risks and rewards arising out of the hedge contract that CEMEX has entered during 2020. Derivative assets increased by P17.4 million or 72.6% and accounted for as 0.1% and less than 0.1% of total assets as at March 31, 2021 and December 31, 2020, respectively. This was mainly due to the changes in fair value.

Prepayments and Other Current Assets

Prepayments and other current assets, amounted to P1.6 billion and P1.8 billion as at March 31, 2021 and December 31, 2020, respectively which pertain primarily to prepayments of insurance, P324.3 million and P628.6 million, respectively, prepayment of taxes, P1.1 billion and P1.0 billion, respectively. Prepayments and other current assets decreased by P234.6 million or 12.9% and accounted for as 2.5% and 2.9% of total assets as at March 31, 2021 and December 31, 2020, respectively. This was mainly due to the amortization for the quarter ended March 31, 2021 of prepaid non-damage business interruption and general liability insurance accounts.

Advances to Contractors

In November 2018, the Company made a down payment amounting to P2.1 billion to a third party for the construction and installation of Solid Cement's new production line and is presented under noncurrent assets in the consolidated statements of financial position. As at March 31, 2021 and December 31, 2020, the balance of this account amounted to around P1.1 billion. Advances to contractors decreased by P85.0 million or 7.4% and accounted for 1.7% and 1.8% of total assets as at March 31, 2021 and December 31, 2020, respectively. This was due to the depletion of advances in line with the progress of the Solid Expansion Project.

Other Assets and Noncurrent Accounts Receivable

Other assets amounting to P826.6 million and P782.4 million as at March 31, 2021 and December 31, 2020, respectively, primarily consisted of long-term prepayments amounting to P27.9 million, long-term performance deposits of P308.2 million and P266.4 million, respectively, and debt reserve account and guarantee bonds used in operations amounting to P397.0 million and P407.8 million, respectively. The rest mainly referred to noncurrent portion of the unamortized transportation allowances of employees and other long-term prepayments. Other assets and noncurrent accounts receivable increased by P44.8 million or 5.6% and accounted for as less than 1.3% and 1.2% of total assets as at March 31, 2021 and December 31, 2020, respectively. This was mainly due to the long-term deposits to a third-party utility company.

Property, Machinery, Equipment and Assets for the Right-of-Use - net

Property, machinery and equipment had a balance of P20.3 billion and P19.9 billion as at March 31, 2021 and December 31, 2020, respectively. The increase of P377.3 million or 1.9% and accounted for as less than 32.0% and 21.2% of total assets as at March 31, 2021 and December 31, 2020, respectively. For the three months ended March 31, 2021 and for year ended December 31, 2020, P32.2 million and P274.5 million, respectively, were incurred for maintenance capital expenditures and P0.7 billion and P3.3 billion respectively, for strategic capital expenditures. Property, machinery and equipment, net increased by P377.3 million or 1.9% and accounted for as less than 32.0% and 31.2% of total assets as at March 31, 2021 and December 31, 2020, respectively.

Assets for the right-of-use, net amounted to P1.6 billion and P1.8 billion as at March 31, 2021 and December 31, 2020. Assets for the right-of-use, net decreased by P155.7 million or 8.7% and accounted for as less than 2.6% and 2.8% of total assets as at March 31, 2021 and December 31, 2020, respectively. This was mainly due to the amortization for the first quarter ended March 31, 2021.

Deferred Income Taxes - net

The Company's deferred income tax asset, net amounted to P0.9 billion and P1.1 billion as at March 31, 2021 and December 31, 2020, respectively. While the deferred income tax liabilities amounted to P847.6 thousand and P853.4 thousand as at March 31, 2021 and December 31, 2020, respectively. The deferred income taxes – net is accounted for as 1.5% and 1.7% of the total assets as at March 31, 2021 and December 31, 2020, respectively.

The decrease in deferred income taxes – net, of P150.0 million or 13.8% was mainly because of the application of CREATE with lower income tax rates and adjustments to the valuation of the deferred income tax account.

Goodwill

The Company's goodwill arose from the business combinations when the Parent Company acquired its subsidiaries. As of March 31, 2021, no impairment of goodwill is recognized. Goodwill is accounted for as 43.9% and 43.7% of total assets as at March 31, 2021 and December 31, 2020, respectively.

Trade Payables

Trade payables amounted to P4.4 billion and P4.3 billion as at March 31, 2021 and December 31, 2020, respectively. Trade payables increased by P135.1 million or 3.2% and accounted for as 21.8% and 21.1% of total liabilities as at March 31, 2021 and December 31, 2020, respectively. This is mainly due to the increase in payable related to purchase of fuel, power, and raw material.

Unearned Income, Other Accounts Payable, and Accrued Expenses

The unearned income, other accounts payable and accrued expenses amounted to P1.2 billion and P1.3 billion as at March 31, 2021 and December 31, 2020, respectively. This account pertains to the unearned income from reinsurance premium, accruals, taxes payable and others. Unearned income, other accounts payable, and accrued expenses decreased by P123.4 million or 9.6% and accounted for as 5.7% and 6.3% of total liabilities as at March 31, 2021 and December 31, 2020, respectively. This was mainly due to the amortization of unearned reinsurance premiums.

Lease Liabilities

Current portion of finance lease liabilities amounted to P522.9 million and P628.3 million as at March 31, 2021 and December 31, 2020, respectively. Noncurrent portion of finance lease liabilities amounted to P1.4 billion as at March 31, 2021 and December 31, 2020. Lease liabilities decreased by P164.9 million or 8.0% and accounted for as 9.4% and 9.9% of total liabilities as at March 31, 2021 and December 31, 2020, respectively. This was mainly due to the payments made this quarter ended March 31, 2021.

Bank loans

The total outstanding balance of the BDO Refinancing Loan amounted to P10.3 billion and P10.8 billion as at March 31, 2021 and December 31, 2020, respectively. Current portion of the bank loan amounted to P140.1 million as at March 31, 2021 and December 31, 2020. The unamortized debt issuance cost of this bank loan, amounting to P73.6 million and P80.1 million, was deducted from the total loan liability as at March 31, 2021 and December 31, 2020, respectively. The outstanding balance of this bank loan decreased by P528.5 million or 4.9% and accounted for as 7.5% and 7.6% of total liabilities as at March 31, 2021 and December 31, 2020, respectively. This was mainly due to the payments made in February 2021.

Contract Liabilities

Contract liabilities amounted to P421.0 million and P305.1 million as at March 31, 2021 and December 31, 2020, respectively. This account pertains to the advances from customers and unredeemed customer loyalty program. Contract liabilities increased by P115.9 million or 38.0% and accounted for as 2.1% and 1.5% of total liabilities as at March 31, 2021 and December 31, 2020, respectively. This was mainly due to the receipt of advances from customers.

Income tax payable

Income tax payable amounted to nil and P21.3 million as at March 31, 2021 and December 31, 2020, respectively. This is accounted for as nil and 0.1% of total liabilities as at March 31, 2021 and December 31, 2020, respectively. The movement in the account was mainly due to the enactment of the CREATE with salient features of lower income tax rates and the Company has enough available tax credits to apply against the computed income tax payable. Hence, resulting in a nil balance as at March 31, 2021.

Common Stock

As at March 31, 2021 and December 31, 2020, the total authorized common stock of the Equity Attributable to Equity Holders of the Parent Company consisted of 18,810,395,454 shares at a par value of P1 per share and the total issued and outstanding common stock was 13,489,226,623 shares. This is accounted for as 31.2% of total equity as at March 31, 2021 and December 31, 2020.

Additional paid-in capital

As at March 31, 2021 and December 31, 2020, the additional paid-in capital amounted to P26.2 billion. The considerations received in excess of the par value of shares issued are recognized in this account. This is accounted for as 60.7% of total equity as at March 31, 2021 and December 31, 2020.

17

Other Equity Reserves

The amount referred to the cumulative effects of items and transactions that were, temporarily or permanently, recognized directly to stockholders' equity which included share-based compensation, remeasurement of retirement benefits liability (net of tax) and cumulative currency translation of foreign subsidiaries. The increase of P97.7 million or 229.3% and is accounted for as less than 0.1% of total equity as at March 31, 2021 and December 31, 2020. This was primarily due to the effect of the currency translation of foreign subsidiaries.

Retained Earnings

Retained earnings of P3.5 billion and P3.2 billion as at March 31, 2021 and December 31, 2020 respectively, included the Company's cumulative net results of operations. The increase of P205.5 million pertains to the consolidated profit for the three months ended March 31, 2021.

Non-controlling interest

The Company has P141.6 thousand and P149.7 thousand non-controlling interest as at March 31, 2021 and December 31, 2020, respectively. The 5.0% decrease was from the portion of loss of the subsidiary not held by the Parent Company.

Key Performance Indicators

The Company sets certain performance measures to gauge its operating performance periodically and to assess its overall state of corporate health. Listed below are the major performance measures, which the Company has identified as reliable performance indicators. Analyses are employed by comparisons and measurements on a consolidated basis based on the financial data as at the relevant periods indicated in the tables below.

PART II - OTHER INFORMATION

The values presented in the other information are stated in thousands.

Insurance claims

On September 20, 2018, a landslide occurred in Sitio Sindulan, Barangay Tina-an, Naga City, Cebu, Philippines (the “Landslide”), a site located within an area covered by the mining rights of APO Land & Quarry Corporation (“ALQC”) who is a principal raw material supplier of APO Cement. The Parent Company does not own any equity stake (directly or indirectly) in ALQC or its parent company, Impact Assets Corporation. Cemex Asian South East Corporation, an indirect subsidiary of CEMEX, S.A.B. de C.V. which is a majority shareholder of the Parent Company, owns a minority 40% stake in Impact Assets Corporation.

The Landslide prompted local and national authorities to order the suspension of the mining operations of ALQC¹. Business continuity plans were put in place by APO Cement and implemented to address the disruption in the supply arrangement with ALQC. As a result, the Company incurred incremental costs of raw materials in production and other expenses. In addition, the Company incurred losses amounting to P83,844 on inventories which were buried during the incident. However, substantial portion of such incremental costs and losses were offset by the insurance claims recognized amounting to P662,210. Other losses as result of the landslide amounting to P71,716 were not covered by the insurance. Such loss was recognized under “Other income (expenses) - net” account in the statements of comprehensive income in 2018. As at March 31, 2021 and December 31, 2020, the outstanding claims amounted to nil and P1,126, respectively.

In 2019, the Company received the outstanding amount of its insurance claims amounting to P447,053 which includes the additional claims made during the year amounting to P123,136. The collection and recognition of additional insurance claims were offset against “Costs of Sales” account in the consolidated statements of comprehensive income for the year ended December 31, 2019.

On November 19, 2018, the Parent Company and APO Cement were served summons concerning an environmental class action lawsuit filed by 40 individuals and one legal entity (on behalf of 8,000 individuals allegedly affected by the Landslide) at the Regional Trial Court of Talisay, Cebu², against the Parent Company, APO Cement, ALQC, the Mines and Geosciences Bureau of the Department of Environment and Natural Resources, the City Government of Naga, and the Province of Cebu, for “Restitution of Damage of the Natural and Human Environment, Application for the Issuance of Environmental Protection Order against Quarry Operations in Cebu Island with Prayer for Temporary Protection Order, Writ of Continuing Mandamus for Determination of the Carrying Capacity of Cebu Island and Rehabilitation and Restoration of the Damaged Ecosystems”. In the complaint, among other allegations, plaintiffs (i) claim that the Naga Landslide occurred as a result of the defendants’ gross negligence; and (ii) seek, among other reliefs, (a) monetary damages in the amount of approximately 4.3 billion Philippine Pesos, (b) the establishment of a 500 million Philippine Pesos rehabilitation fund, and (c) the issuance of a Temporary Environment Protection Order against ALQC while the case is still pending. In the complaint, ALQC, APO Cement and the Parent Company are made solidarily liable for payment of monetary damages and establishment of a rehabilitation fund.

Among other defenses and based on a report by the Mines and Geosciences Bureau of the Department of Environment and Natural Resources, the Parent Company, ALQC and APO Cement hold the position that the landslide occurred due to natural causes and deny liability, fault and negligence. In the event a final adverse resolution is issued in this matter, plaintiffs will have the option to proceed

¹ Since third quarter of 2020, local and national authorities have allowed ALQC to resume its mining operations in the affected areas.

² The records of the case were subsequently transferred to the Regional Trial Court of Cebu City Branch 23.

against any one of ALQC, APO Cement or the Parent Company for satisfaction of the entirety of the potential judgement award, without the need to proceed against any other private defendant beforehand. Thus, ALQC's, APO Cement's or the Parent Company's assets alone could be exposed to execution proceedings.

In an order dated August 16, 2019, the Regional Trial Court denied plaintiffs' Application for Temporary Environment Protection Order. By denying such application, the Regional Trial Court found that the applicants did not sufficiently establish that they will suffer grave injustice and irreparable injury by the continued operations of ALQC while the proceedings are pending.

In an order dated September 30, 2019, the Regional Trial Court partially granted the affirmative defenses of the private defendants and ruled, among others, that the subject case against the Parent Company and APO Cement is dismissed for failure to state a cause of action. The court also ruled that: (i) the 22 plaintiffs who failed to sign the verification and certification against forum shopping are dropped as party-plaintiffs; (ii) the subject case is not a proper class suit, and that the remaining 17 plaintiffs can only sue for their respective claims, but not as representatives of the more than 8,000 alleged victims of the landslide incident; (iii) plaintiffs' cause of action against ALQC for violation of Section 19(a) of Republic Act No. 10121 is dismissed; (iv) there is a misjoinder of causes of action between the environmental suit and the damage suit; and (v) the damage suit of the remaining plaintiffs will proceed separately upon payment of the required docket fees within 30 days from receipt of order, otherwise, the case for damages will be dismissed. The plaintiffs filed a motion for reconsideration of the court's order dated September 30, 2019, which remains pending as of the date of this report.

Local and national authorities have allowed ALQC to resume its mining operations in the affected areas. As at March 31, 2021, at this stage of the overall proceedings and considering all possible defenses that could be available, while the Company cannot assess with certainty the likelihood of an adverse result in the overall proceedings, the Company believes that a final adverse resolution in the overall proceeding is not probable, and, in turn, because the Company is not able to assess the outcome of the reconsiderations filed against the court's order, the Company is not able to determine if a final adverse resolution, if any, would have a material adverse impact on the Company's consolidated results of operations, liquidity and financial condition.

Impact of COVID-19

On March 11, 2020, the World Health Organization declared a pandemic the outbreak of the Coronavirus Disease 2019 (the "COVID-19 pandemic"), due to its rapid spread throughout the world, having affected as of such date more than 150 countries. In response to that, on March 16, 2020, the President of the Philippines issued Proclamation No. 929 declaring a state of calamity throughout the Philippines due to the COVID-19 Pandemic which resulted in the imposition of an Enhanced Community Quarantine ("ECQ") throughout Luzon starting midnight of March 16, 2020. The President announced several social distancing measures which were implemented including extension of suspension of classes in all levels in Metro Manila, prohibition of mass gatherings or events, imposition of community quarantine measures as necessary, restriction of mass public transport system (MRT, LRT, etc.), and suspension of land, domestic air and domestic sea travel to and from Metro Manila beginning March 16, 2020. On March 26, 2020, the Governor of Cebu Province announced the implementation of ECQ measures for the entire island of Cebu, effective March 30, 2020.

Beginning May 16, 2020, several cities and provinces (which included Metro Manila and Cebu City) were placed under modified enhanced community quarantine, while other cities and provinces (which included the Province of Rizal and other cities in the Province of Cebu) were placed under general community quarantine. As of the second half of August 2020, Metro Manila and Cebu City, as well as the Municipalities of Minglanilla and Consolacion in the Province of Cebu, were among the areas which shifted to general community quarantine. On September 1, 2020, Cebu City, the Province of

Cebu, and Rizal Province already shifted to modified general community quarantine with lesser quarantine restrictions. Effective on March 29, 2021, NCR, as well as 4 other provinces (i.e., Laguna, Rizal, Cavite and Bulacan), were placed under ECQ until April 5, 2021 due to the surge in COVID-19 cases in the Philippines. On April 3, 2021, the ECQ status was further extended to April 11, 2021 and, thereafter, revised to modified enhanced community quarantine until April 30, 2021.

Considering the implementation of the first ECQ in Luzon, Solid Cement temporarily suspended the production and delivery of cement products in the third week of March 2020 and has resumed operations on May 2020 while in compliance with government regulations. APO Cement has remained operational while also complying with all government regulations and the necessary hygiene and safety measures.

The implications negatively affected the Company's results of operations, mostly during the second quarter of 2020. During the year ended December 31, 2020, consolidated revenues decreased by 16% against the previous year, caused mainly by the decrease in sales volumes from reduced operations. This decrease in revenues was partially offset by a reduction in cost of sales and operating costs and expenses, which decreased 17% and 14%, respectively, during the same period, because of reduced operations but also considering the strict control of expenditures. For the period ended March 31, 2021 and December 31, 2020, additional expenses were incurred by the Company associated with measures designed to address the adverse impact of COVID-19 pandemic amounting to P6,776 and P49,766, respectively. These additional expenses were presented under "Operating expenses" and "Other income (expenses) - net" account in the condensed consolidated interim statements of profit or loss and other comprehensive income for period ended March 31, 2021 and December 31, 2020, respectively.

Even prior to the imposition of ECQ, the Company implemented, and has continued to implement, strict hygiene protocols in all its operations and modified its manufacturing, sales, and delivery processes to implement physical distancing, so as to protect the health and safety of its employees and their families, customers and suppliers; and drastically reduce the possibility of contagion of the COVID-19 pandemic. The Company has undertaken and continues to explore temporary measures to address the adverse impact of the COVID-19 pandemic on its workforce and operations with the objective of re-aligning the organization's resources with the evolving conditions in the different markets in which the Company operates. The Company will continue to focus its efforts on managing the impact of the COVID-19 pandemic on its production, commercial, and financial activities. It will continue to carefully monitor this overall situation and expects to take additional steps, as could be required.

The degree to which the COVID-19 pandemic continues to affect the Company's liquidity, financial condition and results of operations will depend on future developments, some of which are highly uncertain and cannot be predicted, including, but not limited to, the duration and continued spread of the outbreak, its severity, the actions to contain the virus or treat its impact, and to how fast and to which extent the economic and operational conditions can return, within a new normality with limited activities, until medicines, vaccines and other treatments against the virus are authorized, produced, distributed and accessible to the general public in the Philippines, and also to a degree, how much of the population is willing to receive the vaccines.

In addition to risks to the health and safety of the Company's employees, customers, contractors and suppliers, the impact of pandemics, epidemics or outbreaks of infectious diseases may result in governmental measures to be implemented to attempt to contain and mitigate the effects of the disease. These measures, and the adverse effects of the pandemic, epidemic or outbreaks of infectious diseases may result, in: (i) temporary restrictions on, or suspended access to, or shutdown, or suspension or the halt of, the Company's manufacturing plants and other facilities; (ii) staffing shortages, production slowdowns or stoppages and disruptions in our delivery systems; (iii) disruptions or delays in our supply chains, including shortages of materials, products and services on which the Company and its businesses depend; (iv) reduced availability of land and sea transport

methods to deliver our products, including labor shortages, logistics constraints and increased border controls or closures; (v) increased cost of materials, products and services on which the Company and its businesses depend; (vi) reduced investor confidence and consumer spending where the Company operates; (vii) a general slowdown in economic activity, including construction, and a decrease in demand for the Company's products and industry demand generally; (viii) constraints on the availability of financing in the financial markets, if available at all, including on access to credit lines and working capital facilities from financial institutions; or (ix) the Company's inability to, if required, refinance our existing indebtedness on desired terms, if at all.

The Company dealt with liquidity risks during the deepest phase of suspension of activities within the COVID-19 pandemic, maintaining sufficient cash and meeting current maturing obligations. Among the initiatives taken by the Company to manage the impact of COVID-19 were: (i) the optimization of plant production and inventory levels, (ii) the suspension, deferment or reduction in capital expenditures and budgeted operating expenses (including sales and administration expenses), and installing other cost control measures to reduce discretionary expenses and capital expenditures, (iii) implementation of changes in work-deployment schedules, (iv) further emphasis on the use of the CEMEX Go platform for a digital and low-touch experience for customers, and (v) enabled additional online channels to promote engagement, manage communications and facilitate transactions with customers.

The Company projects that it will continue to generate sufficient cash flows from operations, which would enable the Company to meet its currently maturing obligations.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

(Amounts in Thousands, Except per Share Data, Number of Shares and When Otherwise Stated)

NOTE 1 - DESCRIPTION OF BUSINESS

CEMEX Holdings Philippines, Inc. (the "Parent Company"), a subsidiary of CEMEX Asian South East Corporation (CASEC), was incorporated as a stock corporation on September 17, 2015 under Philippine laws, primarily to invest in or purchase real or personal property; and to acquire and own, hold, use, sell, assign, transfer, mortgage all kinds of properties, such as shares of stock, bonds, debentures, notes, or other securities and obligations; provided that the Parent Company shall not engage either in the stock brokerage business or in the dealership of securities, and in the business of an open-end investment company as defined in Republic Act 2629, Investment Company Act.

CASEC was incorporated as a stock corporation on August 25, 2015 under Philippine laws.

On a consolidated group basis, the Parent Company is an indirect subsidiary of CEMEX, S.A.B. de C.V. (CEMEX), a company incorporated in Mexico with address of its principal executive office at Avenida Ricardo Margain Zozaya #325, Colonia Valle del Campestre, Garza Garcia, Nuevo León, Mexico.

The term "Parent Company" used in these accompanying notes to the condensed consolidated interim financial statements refers to CEMEX Holdings Philippines, Inc. without its subsidiaries. The term "Company" refers to CEMEX Holdings Philippines, Inc., together with its consolidated subsidiaries.

On January 1, 2016, the Parent Company became the holding company of the consolidated entities, majority of whom are doing business in the Philippines. The Parent Company's two principal manufacturing subsidiaries, i.e., APO Cement Corporation (APO) and Solid Cement Corporation (Solid), are involved in the production, marketing, distribution and sale of cement and other cement products. APO and Solid are both stock corporations organized under the laws of the Philippines. The Parent Company holds APO directly and indirectly, through Edgewater Ventures Corporation and Triple Dime Holdings, Inc., whereas the Parent Company holds Solid and Solid's subsidiaries directly and indirectly, through Bedrock Holdings, Inc. and Sandstone Strategic Holdings, Inc.

The Company also includes CEMEX Asia Research AG (CAR), a wholly-owned subsidiary incorporated in December 2015 under the laws of Switzerland. Pursuant to license agreements that CAR entered into with CEMEX Research Group AG (CRG) and CEMEX, respectively, CAR became a licensee for certain trademarks, including the CEMEX trademark, and other intangible assets forming part of the intellectual property portfolio owned and developed by CRG and CEMEX. CAR is engaged primarily in the development, maintenance and customization of these intangible assets for the Asia Region and it in turn provides non-exclusive licenses to Solid and APO to use the CEMEX trademark and other trademarks and intangible assets of CEMEX. CRG, an entity under common control of CEMEX, was organized under the laws of Switzerland. CRG develops and manages CEMEX's research and development initiatives.

In May 2016, the Parent Company incorporated a wholly-owned subsidiary named Falcon Re Ltd. (Falcon) under the Companies Act of Barbados. Falcon is registered to conduct general insurance business, all risk property insurance, political risks insurance and non-damage business interruption insurance, and received its license to operate as an insurance company in July 2016. Falcon acts as a re-insurer to the extent of 10% of the risks associated with the property insurance coverage and 100% of the risks associated with political violence and non-damage business interruption programs, professional liability program, and cyber risks for the operating subsidiaries of the Parent Company.

On June 30, 2016, the Philippine Securities and Exchange Commission (SEC) resolved to render effective the Registration Statement of the Parent Company and issued a Certificate of Permit to Offer Securities for Sale in favor of the Parent Company. On July 18, 2016, the Parent Company's initial public offering (IPO) of 2,337,927,954 common shares at P10.75 per share culminated with the listing and trading of shares of stocks under the Main Board of the Philippine Stock Exchange (PSE), resulting in an increase in capital stock of P2,337,928 and additional paid-in capital of P21,959,159, net of P835,639 transaction cost that is accounted for as a reduction in equity.

On April 2, 2019 and October 16, 2019, the Board of Directors (BOD) and stockholders of the Parent Company, respectively, approved the amendment of the Seventh Article of the Amended Articles of Incorporation of the Parent Company to reflect an increase in the Parent Company's authorized capital stock (ACS) from P5,195,395, consisting of 5,195,395,454 common shares with a par value of P1 per share, to P18,310,395, consisting of 18,310,395,454 common shares with a par value of P1 per share. In connection with the proposed capital increase, a stock rights

offering (SRO) was pursued by the Parent Company. On December 11, 2019, the SEC issued a Notice of Confirmation of Exempt Transaction, confirming that the SRO is exempt from the registration requirements of the Securities Regulation Code of the Philippines, and the board of directors of the PSE approved the Parent Company's application for listing of the shares to be offered in the SRO, subject to the fulfillment of certain listing conditions, such as but not limited to the Parent Company having obtained the SEC's approval of the increase in its ACS.

On January 6, 2020, the Parent Company defined the final terms of the SRO which involved 8,293,831,169 common shares which was sourced from the increase in the Parent Company's ACS, with an offer price of P1.54 per share during an offer period from January 20 to 24, 2020. On February 27, 2020, the SEC approved the increase in ACS of the Parent Company from 5,195,395,454 at P1 par value to 18,310,395,454 at P1 par value. The SRO offer period was concluded resulting in the full subscription of 8,293,831,169 common shares. After the SRO and the approval from the SEC of the Parent Company's application for increase in ACS, the total number of issued and outstanding shares of the Parent Company is 13,489,226,623 common shares. On March 4, 2020, the 8,293,831,169 common shares comprising the rights shares were listed under the Main Board of the PSE.

The Parent Company's principal office is at 34th Floor Petron Mega Plaza Building, 358 Sen. Gil J. Puyat Avenue, Makati City, Philippines.

NOTE 2 - BASIS OF PREPARATION

A) STATEMENT OF COMPLIANCE

These condensed consolidated interim financial statements have been prepared in accordance with Philippine Accounting Standard (PAS) 34, *Interim Financial Reporting*. These condensed consolidated interim financial statements do not include all of the information required for a complete set of financial statements and should be read in conjunction with the annual consolidated financial statements of the company as at and for the year ended December 31, 2020.

B) BASIS OF MEASUREMENT

The condensed consolidated interim financial statements have been prepared on the historical cost basis of accounting, except for retirement benefits liability which is measured at the present value of the defined benefit obligation less the fair value of plan assets and derivative financial asset and other investments, under "Investment in an associate and other investments", that are measured at fair value.

C) PRINCIPLES OF CONSOLIDATION

The condensed consolidated interim financial statements, includes those of the Parent Company and those of the subsidiaries in which the Parent Company exercises control by means of which the Parent Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. In assessing control, potential voting rights that are presently exercisable or convertible are taken into account. Among other factors, control is evidenced when the Parent Company: a) holds directly or through subsidiaries, more than 50% of an entity's common stock; or b) has the power, directly or indirectly, to govern the administrative, financial and operating policies of an entity.

When the Company has less than a majority of the voting or similar rights of an investee, the Company considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee;
- Rights arising from other contractual arrangements; and
- The Company's voting rights and potential voting rights.

The financial statements of the subsidiaries are included in the consolidated financial statements from the date when the Company obtains control and continue to be consolidated until the date that such control ceases.

The condensed consolidated interim financial statements of the Company are prepared for the same reporting period as the Parent Company, using uniform accounting policies for like transactions and other events in similar circumstances. Non-controlling interest is the equity in a subsidiary not attributable, directly or indirectly, to a parent. It is measured at its proportionate share of the acquiree's identifiable net assets at the acquisition date. Changes in the Parent Company's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the

consideration paid or received is recognized directly in equity and attributed to the Company.

If the Company loses control over a subsidiary, it:

- derecognizes the assets (including goodwill) and liabilities of the subsidiary;
- derecognizes the carrying amount of any non-controlling interest;
- derecognizes the related other comprehensive income (OCI) recorded in equity and recycles the same to profit or loss or retained earnings;
- recognizes the fair value of the consideration received;
- recognizes the fair value of any investment retained; and
- recognizes any surplus or deficit in profit or loss.

The Company has P142 and P150 non-controlling interest as at March 31, 2021 and December 31, 2020, respectively.

All intragroup transactions, balances and income and expenses are eliminated in consolidation. Each subsidiary is a legally responsible separate entity and maintains custody of its own financial resources.

D) DEFINITION OF TERMS

When reference is made to “P”, it means Philippine Peso. Unless otherwise indicated, the Philippine Peso amounts in the condensed consolidated interim financial statements and the accompanying notes are stated in thousands. When reference is made to “US\$” or dollar and “€” or euro, it means thousands of dollars of the United States of America (the “United States” or “U.S.”) and euros of the European Union, respectively.

Earnings per share (EPS) is a figure describing a public company's profit per outstanding share of stock, calculated on a quarterly or annual basis. EPS is arrived at by taking a company's quarterly or annual net income and dividing by the number of its shares of stock outstanding.

E) FUNCTIONAL AND PRESENTATION CURRENCY

These condensed consolidated interim financial statements of the Company are presented in Philippine Peso, the functional currency of the Parent Company and each of its subsidiaries, except for Falcon and CAR whose functional currencies are both in U.S. dollar. All values are rounded to the nearest thousands, except when otherwise stated.

F) USE OF JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the condensed consolidated interim financial statements requires management to make judgments, estimates and use assumptions that affect the application of the Company's accounting policies and the reported amounts of assets, liabilities, income and expenses. These assumptions are reviewed on an ongoing basis using available information. Actual results may differ from these estimates.

The significant judgments and estimates made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that were applied to the annual consolidated financial statements.

Judgment on the lease term to be considered in computing for lease liabilities

The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised. The Company has contracts that include extension option to lease parcels of land. The Company applies judgment in evaluating whether it is reasonably certain whether or not to exercise the option to renew the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise the renewal. The Company included the complete renewal period as part of the lease term for such leases of parcels of land as this is reasonably certain to be exercised considering the costs and business disruption required to replace the leased asset. After the commencement date, the Company reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew.

Estimating allowance for impairment losses on trade receivables

During the three months ended March 31, 2021, management reassessed its estimates in respect of the allowance for impairment losses on receivables. As at March 31, 2021 and December 31, 2020, allowance for impairment losses on receivables amounted to P27,085 and P26,728, respectively (see Note 14).

NOTE 3 – SIGNIFICANT ACCOUNTING POLICIES

A) CHANGES IN ACCOUNTING POLICIES

The accounting policies adopted in the preparation of the condensed consolidated interim financial statements are consistent with those followed in the preparation of the audited annual consolidated financial statements as of and for the year ended December 31, 2020. Except as otherwise indicated, the adoption of these amendments to standards did not have any significant impact on the Company's consolidated financial statements.

1. Adoption of Amendments to Standards

1.1 Amendments to References to Conceptual Framework in PFRS Standards sets out amendments to PFRS Standards, their accompanying documents and PFRS practice statements to reflect the issuance of the revised Conceptual Framework for Financial Reporting in 2018 (2018 Conceptual Framework). The 2018 Conceptual Framework includes:

- a new chapter on measurement;
- guidance on reporting financial performance;
- improved definitions of an asset and a liability, and guidance supporting these definitions; and
- clarifications in important areas, such as the roles of stewardship, prudence and measurement uncertainty in financial reporting.

Some Standards, their accompanying documents and PFRS practice statements contain references to, or quotations from, the International Accounting Standards Committee (IASC)'s Framework for the Preparation and Presentation of Financial Statements adopted by the IASB in 2001 or the Conceptual Framework for Financial Reporting issued in 2010. The amendments update some of those references and quotations so that they refer to the 2018 Conceptual Framework, and makes other amendments to clarify which version of the Conceptual Framework is referred to in particular documents.

1.2 Definition of Material (Amendments to PAS 1, Presentation of Financial Statements, and PAS 8, Accounting Policies, Changes in Accounting Estimates and Errors). The amendments refine the definition of material. The amended definition of material states that information is material if omitting, misstating or obscuring it could reasonably be expected to influence the decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity. The amendments clarify the definition of material and its application by:

- raising the threshold at which information becomes material by replacing the term 'could influence' with 'could reasonably be expected to influence';
- including the concept of 'obscuring information' alongside the concept of 'omitting' and 'misstating' information in the definition;
- clarifying that the users to which the definition refers are the primary users of general purpose financial statements referred to in the Conceptual Framework;
- clarifying the explanatory paragraphs accompanying the definition; and
- aligning the wording of the definition of material across PFRS Standards and other publications.

The amendments are expected to help entities make better materiality judgments without substantively changing existing requirements.

1.3 COVID-19 - Related Rent Concessions (Amendment to PFRS 16, Leases). The amendments introduce an optional practical expedient that simplifies how a lessee accounts for rent concessions that are a direct consequence of COVID-19. A lessee that applies the practical expedient is not required to assess whether eligible rent concessions are lease modifications, and accounts for them in accordance with other applicable guidance. The practical expedient apply if:

- the revised consideration is substantially the same or less than the original consideration;
- the reduction in lease payments relates to payments due on or before June 30, 2021; and
- no other substantive changes have been made to the terms of the lease.

Lessees applying the practical expedient are required to disclose that fact, whether they have applied the practical expedient to all eligible rent concessions and, if not, the nature of the contracts to which they have applied the practical expedient; and the amount recognized in profit or loss for the reporting period arising from application of the practical expedient. No practical expedient is provided for lessors.

2. Standards Issued But Not Yet Adopted

A number of new standards and amendments to standards are effective for annual periods beginning after January 1, 2020. However, the Company has not early adopted the following new or amended standards in preparing these condensed consolidated interim financial statements. Unless otherwise stated, none of these are expected to have a significant impact on the Company's condensed consolidated interim financial statements. The Company will adopt the following new and amendments to standards in their respective effective dates.

2.1 Property, Plant and Equipment - Proceeds before Intended Use (Amendments to PAS 16, Property, Plant and Equipment). The amendments prohibit an entity from deducting from the cost of an item of property, plant and equipment the proceeds from selling items produced before that asset is available for use. The proceeds before intended use should be recognized in profit or loss, together with the costs of producing those items which are identified and measured in accordance with PAS 2, *Inventories*.

The amendments also clarify that testing whether an item of property, plant and equipment is functioning properly means assessing its technical and physical performance rather than assessing its financial performance.

For the sale of items that are not part of a company's ordinary activities, the amendments require the company to disclose separately the sales proceeds and related production cost recognized in profit or loss and specify the line items in which such proceeds and costs are included in the statement of comprehensive income. This disclosure is not required if such proceeds and cost are presented separately in the statement of comprehensive income.

The amendments are effective for annual reporting periods beginning on or after January 1, 2022. Earlier application is permitted. The amendments apply retrospectively, but only to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented in the financial statements in which the company first applies the amendments.

2.2 Onerous Contracts - Cost of Fulfilling a Contract (Amendment to PAS 37, Provisions, Contingent Liabilities and Contingent Assets). The amendments clarify that the cost of fulfilling a contract when assessing whether a contract is onerous includes all costs that relate directly to a contract – i.e. it comprise both incremental costs and an allocation of other direct costs.

The amendments are effective for annual reporting periods beginning on or after January 1, 2022 to contracts existing at the date when the amendments are first applied. At the date of initial application, the cumulative effect of applying the amendments is recognized as an opening balance adjustment to retained earnings or other component of equity, as appropriate. The comparatives are not restated. Earlier application is permitted.

2.3 Annual Improvements to PFRS Standards 2018-2020. This cycle of improvements contains amendments to the following relevant standards:

- *Fees in the '10 per cent' Test for Derecognition of Financial Liabilities (Amendment to PFRS 9, Financial Instruments).* The amendment clarifies that for the purpose of performing the '10 per cent' test for derecognition of financial liabilities, the fees paid net of fees received included in the discounted cash flows include only fees paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf.
- *Lease Incentives (Amendment to Illustrative Examples accompanying PFRS 16).* The amendment deletes from the Illustrative Example 13 the reimbursement relating to leasehold improvements to remove the potential for confusion because the example had not explained clearly enough the conclusion as to whether the reimbursement would meet the definition of a lease incentive in PFRS 16.

The amendments are effective for annual reporting periods beginning on or after January 1, 2022. Earlier application is permitted.

2.4 Classification of Liabilities as Current or Non-current (Amendments to PAS 1). To promote consistency in application and clarify the requirements on determining whether a liability is current or non-current, the amendments:

- removed the requirement for a right to defer settlement of a liability for at least twelve months after the reporting period to be unconditional and instead requires that the right must have substance and exist at the end of the reporting period;
- clarified that a right to defer settlement exists only if the company complies with conditions specified in the loan agreement at the end of the reporting period, even if the lender does not test compliance until a later date; and
- clarified that settlement of a liability includes transferring a company's own equity instruments to the counterparty,

but conversion options that are classified as equity do not affect classification of the liability as current or non-current.

The amendments apply retrospectively for annual reporting periods beginning on or after January 1, 2023. Earlier application is permitted.

2.5 *PFRS 17, Insurance Contracts*, replaces the interim standard, PFRS 4 Insurance Contracts. Reflecting the view that an insurance contract combines features of both a financial instrument and a service contract, and considering the fact that many insurance contracts generate cash flows with substantial variability over a long period, PFRS 17 introduces a new approach that:

- combines current measurement of the future cash flows with the recognition of profit over the period services are provided under the contract;
- presents insurance service results (including presentation of insurance revenue) separately from insurance finance income or expenses; and
- requires an entity to make an accounting policy choice portfolio-by-portfolio of whether to recognize all insurance finance income or expenses for the reporting period in profit or loss or to recognize some of that income or expenses in other comprehensive income.

Under PFRS 17, groups of insurance contracts are measured based on fulfilment cash flows, which represent the risk-adjusted present value of the entity's rights and obligations to the policy holders, and a contractual service margin, which represents the unearned profit the entity will recognize as it provides services over the coverage period. Subsequent to initial recognition, the liability of a group of insurance contracts represents the liability for remaining coverage and the liability for incurred claims, with the fulfilment cash flows remeasured at each reporting date to reflect current estimates.

Simplifications or modifications to the general measurement model apply to groups of insurance contracts measured using the 'premium allocation approach', investment contracts with discretionary participation features, and reinsurance contracts held.

PFRS 17 brings greater comparability and transparency about the profitability of new and in-force business and gives users of financial statements more insight into an insurer's financial health. Separate presentation of underwriting and financial results will give added transparency about the sources of profits and quality of earnings.

PFRS 17 is effective for annual periods beginning on or after January 1, 2025. Full retrospective application is required, unless it is impracticable, in which case the entity chooses to apply the modified retrospective approach or the fair value approach. However, if the entity cannot obtain reasonable and supportable information necessary to apply the modified retrospective approach, then it applies the fair value approach. Early application is permitted for entities that apply PFRS 9 on or before the date of initial application of PFRS 17.

Deferral of the local implementation of Amendments to PFRS 10, Consolidated Financial Statements, and PAS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture. The amendments address an inconsistency between the requirements in PFRS 10 and in PAS 28, in dealing with the sale or contribution of assets between an investor and its associate or joint venture.

The amendments require that a full gain or loss is recognized when a transaction involves a business (whether it is housed in a subsidiary or not). A partial gain or loss is recognized when a transaction involves assets that do not constitute a business, even if these assets are housed in a subsidiary.

Originally, the amendments apply prospectively for annual periods beginning on or after January 1, 2016 with early adoption permitted. However, on January 13, 2016, the FRSC decided to postpone the effective date of these amendments until the IASB has completed its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

NOTE 4 - REVENUES

Disaggregation of Revenues from Contracts with Customers

Revenues for the three-month period ended March 31, 2021 and 2020 are detailed by major product lines and timing of revenue recognition as follows:

	Timing of revenue recognition		March 31, 2021	March 31, 2020
<i>Revenue from sale of goods</i>				
Cement.....	At a point in time	P	5,194,272	5,628,282
Admixtures and others.....	At a point in time		3,722	1,634
			<u>5,197,994</u>	<u>5,629,916</u>
<i>Revenue from services</i>				
Co-processing of alternative fuel resources.....	Over time		4,243	—
		P	<u>5,202,237</u>	<u>5,629,916</u>

Breakdown of cement sales per customer for the three-month period ended March 31, 2021 and 2020 is as follows:

		March 31, 2021	March 31, 2020
Retailers.....	P	4,148,699	4,395,187
Institutional		979,486	1,215,474
Others		66,087	17,621
Total.....	P	<u>5,194,272</u>	<u>5,628,282</u>

The Company does not depend on any single or few customers, and no single customer represented more than 10% of the Company's consolidated Revenue

Contract Balances

The following table provides information about the opening and closing balances of trade receivables - net and contract liabilities from contracts with customers:

		March 31, 2021	March 31, 2020
Trade receivables - net.....	P	<u>896,670</u>	<u>1,112,654</u>
<i>Contract liabilities</i>			
Advances from customers	P	408,772	378,406
Customer loyalty program.....		12,261	36,387
	P	<u>421,033</u>	<u>414,793</u>

The contract liabilities comprised of unredeemed customer loyalty points and advances from customers. These will be recognized as revenue when the points are redeemed by customers or when the goods are delivered to the customer, which is expected to occur the following year. Contract liabilities as at March 31, 2021 are expected to be recognized as revenue within 12 months. The amount recognized in contract liabilities as at December 31, 2020 is expected to be recognized as revenue within 12 months from the reporting date. There is no other unperformed obligation other than those already included in contract liabilities.

Seasonality of Operations

The Company's sales are subject to seasonality. Sales are generally higher in the hot, dry months from March through May and lower during the wetter monsoon months of June through November. While these factors lead to a natural seasonality on the Company's sales, unseasonable weather could also significantly affect sales and profitability compared to previous comparable periods. Low sales are likewise experienced around the Christmas and New Year holiday period in December through early January. Consequently, the Company's operating results may fluctuate. In addition, the Company's results may be affected by unforeseen circumstances, such as production interruptions. Due to these fluctuations, comparisons of sales and operating results between periods within a single year, or between different periods in different financial years, are not necessarily meaningful and should not be relied on as indicators of the Company's performance.

NOTE 5 – BASIC/ DILUTED EARNINGS PER SHARE

For the three-months ended March 31, 2021 and 2020, basic and diluted earnings per share is computed as follows:

	March 31, 2021	March 31, 2020
Profit	P205,484	P89,122
Add: non-controlling interest net loss	8	8
Controlling interest in profit (a)	P205,492	P89,130
Weighted average number of shares outstanding - Basic/Diluted	13,489,226,623	8,294,189,517
Bonus element of SRO ¹	–	519,539,546
Weighted average number of shares outstanding adjusted for the effect of bonus factor - issuance from SRO ¹ (b)	13,489,266,623	8,813,729,063
Basic/Diluted EPS (a/b)	P0.02	P0.01

¹ The weighted average number of shares takes into account the effect of the bonus element related to the issuance of stock rights.

NOTE 6 – CASH AND CASH EQUIVALENTS

The cash and cash equivalents as at March 31, 2021 and December 31, 2020 consisted of:

		March 31, 2021	December 31,2020
Cash in banks.....	P	P2,367,244	1,875,326
Short-term investments.....		3,697,125	4,264,085
	P	6,064,369	6,139,411

Cash in banks earns interest at the prevailing bank deposit rates. Short-term investments are made for varying periods of up to three months, depending on the immediate cash requirements of the Company, and earn interest ranging from less than 0.01 % to 1.25% for the three months ended March 31,2021 and interest ranging from 0.78% to 1.63% for the three months ended March 31, 2020.

For the three months ended March 31, 2021 and 2020, interest income earned on cash and cash equivalents amounted to P3,241 and P12,123, respectively.

As at March 31, 2021 and December 31, 2020, short-term investments include deposits of the Company with local banks and related parties, which are considered highly liquid investments readily convertible to cash as follows:

		2021	2020
Local banks	P	50,000	50,000
Cemex Innovation Holding AG (Note 14).....		3,647,125	–

NOTE 10 – RELATED PARTY TRANSACTIONS

Related party relationship exists when the other party (i) has control or joint control of the reporting entity; (ii) has significant influence over the reporting entity; or (iii) is a member of the key management personnel of the reporting entity or of a parent of the reporting entity. A related party relationship is deemed to exist when one party has the ability to control, directly or indirectly, through one or more intermediaries, the other party or exercise significant influence over the other party in making the financial and/or operating decisions. Another criteria recognizes a related party relationship, whether or not the ability to control exists, if any of the following conditions applies to an entity: (i) the entity and the reporting entity are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others); (ii) one entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member); (iii) both entities are joint ventures of the same third party; (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity; or (v) the entity is a post-employment benefit plan for the benefit of employees of either the reporting entity or an entity related to the reporting entity (if the reporting entity is itself such a plan, the sponsoring employers are also related to the reporting entity).

The Company has an approval requirement and limits on the amount and extent of related party transactions in compliance with the Revised Securities Regulation Code Rule 68 and the SEC Memorandum Circular 10-2019 - *Rules on Material Related Party Transactions for Publicly-Listed Companies*. Transactions entered into with a related party amounting to 10% or more of the total consolidated assets based on the latest audited consolidated financial statements are considered material. All individually material related party transactions shall be reviewed and evaluated by the Audit Committee and endorsed to the BOD for approval. The material related party transaction shall require the approval of at least two-thirds (2/3) votes of the members of the BOD, with at least the majority of the independent directors voting to approve the material related party transaction. For aggregate related party transactions within 12-month period with the same related party that breaches the materiality threshold, the same review and approval procedures mentioned above is required.

NOTE 11 – INSURANCE CLAIMS AND PREMIUMS RECEIVABLE

Insurance claims and premiums receivable, which is related to non-damage business interruption insurance, consists of premiums receivable from third party insurance company. Premiums receivable represents premiums on written policies which are collectible within the Company's credit term.

As at March 31, 2021 and December 31, 2020, the insurance claims and premiums receivables amounted to nil and P87,569, respectively.

NOTE 12 – SEGMENT INFORMATION

The Company applies PFRS 8, *Operating Segment*, which are defined as the components of an entity that engage in business activities from which they may earn revenues and incur expenses; whose operating results are regularly reviewed by the entity's top management to make decisions about resources to be allocated to the segments and assess their performance; and for which discrete financial information is available. The Company's results and performance is evaluated for decision-making purposes and allocation of resources is made on a per country basis. Hence, the Company represents a single geographical operating segment. The Company's main activity is oriented to the construction industry through the production, distribution, marketing and sale of cement, ready-mix concrete and other construction materials. For the three-months period ended March 31, 2021 and 2020, the cement sector represented approximately 90.4% and 89.34% respectively, of total net revenues before eliminations resulting from consolidation, and 129.7% and 131.73%, of Operating EBITDA.

The main indicator used by the Company's management to evaluate performance is "Operating EBITDA", representing operating earnings before other income - net, interest, tax, depreciation and amortization, considering that such amount represents a relevant measure for the Company's management as an indicator of the ability to internally fund capital expenditures, as well as a widely accepted financial indicator to measure the Company's ability to service or incur debt. Operating EBITDA should not be considered as an indicator of the Company's financial performance, as an alternative to cash flow, as a measure of liquidity, or as being comparable to other similarly titled measures of other companies.

NOTE 13 – LONG-TERM BANK LOAN

On February 1, 2017, the Parent Company signed a Senior Unsecured Peso Term Loan Facility Agreement (Facility Agreement) with BDO Unibank, Inc. (BDO) for an amount of up to the Philippine Peso equivalent of US\$280,000 to refinance a majority of the Parent Company's outstanding long-term loan with New Sunward Holding B.V. The term loan provided by BDO has a tenor of seven (7) years from the date of the initial drawdown on the facility and consists of a fixed rate and a floating rate tranche based on market rates plus spread. Short-term portion of the bank loan amounted to P140,123 as at March 31, 2021 and December 31, 2020.

The unamortized debt issuance cost of this bank loan amounting to P73,564 and P80,055 as at March 31, 2021 and December 31, 2020, respectively, was deducted from the total loan liability. Interest expense incurred as at March 31, 2021 and 2020, excluding amortization of debt issuance cost, amounted to P424,430 and P618,224, respectively, which is recognized under "Financial expenses" account in the condensed consolidated interim statements of profit or loss and other comprehensive income.

The reconciliation of opening and closing balances of bank loan follows:

		Bank Loan	Accrued Interest	Total
Balance as at January 1, 2020.....	P	11,320,925	95,000	11,415,925

Balance as at March 31, 2021.....	P	10,178,226	63,829	10,242,055

Accrued interest from this bank loan amounting to P63,829 and P69,108 as at March 31, 2021 and December 31, 2020, respectively, are recognized under "Unearned income, other accounts payable and accrued expenses" account in the condensed consolidated interim statements of financial position.

The Facility Agreement also provides certain covenants. Compliance with these covenants shall be tested semi-annually. On December 8, 2017, the Parent Company entered into a Supplemental Agreement to the Facility Agreement with BDO pursuant to which, more notably, it was agreed that:

- i. the commencement date for compliance with the aforementioned financial covenants under the Facility Agreement would be in June 2020;
- ii. debt service reserve accounts were created; and
- iii. additional debt incurrence restrictions be put in place.

One of these debt incurrence restrictions agreed is based on a financial ratio that measures, on a consolidated basis, the Parent Company's ability to cover its interest expense using its Operating EBITDA (interest coverage ratio) and is measured by dividing Operating EBITDA by the financial expense for the last twelve months as of the calculation date. Operating EBITDA equals operating income before other income, net plus depreciation and amortization. On December 14, 2018, the Parent Company entered into another Supplemental Agreement to the Facility Agreement that provides an option, only for certain potential events of default under the Facility Agreement, for the Parent Company's ultimate parent company, CEMEX, or any affiliate of CEMEX which is not a direct or indirect subsidiary of the Parent Company, to pay all amounts outstanding under the Facility Agreement before they become due and payable prior to their maturity in certain events.

Debt service reserve account related to the Company's bank loan amounted to P291,674 and P302,462 as at March 31, 2021 and December 31, 2020, respectively, and is recognized under "Other assets and noncurrent accounts receivable" account in the condensed consolidated interim statements of financial position.

On May 15, 2019, the Company signed an Amendment to the Facility and Supplemental Agreements with BDO mainly to:

- i. conform the Facility Agreement with certain changes required due to PFRS 16 entering into effect;
- ii. exclude from financial covenants in the Facility Agreement any principal and interest from certain subordinated loans and advances incurred in relation with the new cement line being built by Solid that have been made or are to be made to the Company by any subsidiary of CEMEX; and
- iii. allow for certain loans taken by the Company with any CEMEX subsidiary to be paid with the proceeds from any equity fundraising activity of the Parent Company without having to pay a prepayment fee to BDO under the Facility Agreement.

On June 30, 2020, the Parent Company entered into an agreement with BDO to further amend the Facility Agreement, which provides compliance with certain financial covenants to commence at the later date of June 30, 2021.

As at March 31, 2021, the Parent Company is in compliance with the applicable restrictions and covenants of the Facility Agreement.

NOTE 14 – FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT

This note presents information on the financial risk exposure of the Company relating to credit risk, foreign currency risk, commodity price risk and liquidity risk; goals, policies and procedures of the Company to measure and manage such risks and the administration of the Company's resources.

The Company's management has overall responsibility for the development, implementation and monitoring of the conceptual framework and policies for an effective risk management.

The Company's risk management policies are intended to:

- a) identify and analyze the risks faced by the Company;
- b) implement appropriate risk limits and controls; and
- c) monitor the risks and the compliance with the limits.

Policies and risk management systems are regularly reviewed to reflect changes in market conditions and in the Company's activities. By means of its policies and procedures for risk management, the Company aims to develop a disciplined and constructive control environment where all employees understand their roles and obligations.

Credit Risk

Credit risk is the risk of financial loss faced by the Company if a customer or counterparty of a financial instrument does not meet its contractual obligations and originates mainly from trade receivables. As at March 31, 2021 and December 31, 2020, the maximum exposure to credit risk is represented by the balance of financial assets (excluding equity investments). Management has developed policies for the authorization of credit to customers. The exposure to credit risk is monitored constantly according to the behavior of payment of the debtors. Credit is assigned on a customer-by-customer basis and is subject to assessments which consider the customers' payment capacity, as well as past behavior regarding due dates, balances past due and delinquent accounts. In cases deemed necessary, the Company's management requires cash bonds from its customers and financial counterparties with regard to financial assets, which can be called upon if the counterparty is in default under the terms of the agreement. Cash bonds received from credit customers as at March 31, 2021 and December 31, 2020 amounted to P32,624.

The Company's management has established a policy which analyzes the creditworthiness of each new client individually before offering the general conditions of payment terms and delivery, and the review includes external ratings, when references are available, and in some cases bank references. Threshold of credit limits are established for each client, which represent the maximum credit amount that requires different levels of approval. Customers who do not meet the levels of solvency requirements imposed by the Company can only carry out transactions with the Company by paying cash in advance.

The carrying amount of financial assets below represents the maximum credit exposure without taking into account the effect of collateral and any credit enhancements. The maximum exposure to credit risk as at March 31, 2021 and December 31, 2020 is as follows:

	Gross Carrying Amount		Net Carrying Amount	
	March 31, 2021 (Unaudited)	December 31, 2020 (Audited)	March 31, 2021 (Unaudited)	December 31, 2020 (Audited)

Trade Receivables

The Company applied the simplified approach in measuring ECLs which uses a lifetime expected loss allowance for all trade receivables. To measure the ECLs, trade receivables have been grouped by shared credit risk characteristics based on customer type and determines for each group an average ECL, considering actual credit loss experience over the last 12 months and the Company's view of economic conditions over the expected lives of the trade receivables. The ECL rate that is used to arrive at the ECL arising from the current year credit sales is computed as the percentage of prior year's credit sales that eventually became more than 365 days overdue. The ECL rate is 100% for the trade receivables that are 365 and more days past due. The Company has identified the GDP growth rate to be the most relevant macroeconomic factor that affects the ability of the customers to settle the receivables. However, it was assessed that the adjustment for forward-looking information is not material. The Company does not have trade receivable for which no allowance is recognized because of collateral.

The following table provides information about the exposure to credit risk and ECLs for trade receivables:

As at March 31, 2021	Current	1 to 30 days	31 to 60 days	More than 60 days	Total
Average ECL rates	0.00%	0.18%	12.43%	51.58%	2.93%
Trade receivables - gross carrying amount.....	P 785,643	64,941	27,516	45,655	923,755
Allowance for impairment losses	-	114	3,420	23,551	27,085

As at December 31, 2020	Current	1 to 30 days	31 to 60 days	More than 60 days	Total
Average ECL rates	0.5%	0.6%	1.7%	54.6%	3.7%
Trade receivables - gross carrying amount.....	P 594,333	66,601	24,256	41,700	726,890
Allowance for impairment losses	3,177	388	415	22,748	26,728

Other Financial Assets (excluding Equity Instruments)

Impairment on cash and cash equivalents, long-term time deposits (recognized under “Other assets and noncurrent accounts receivable” account in the condensed consolidated interim statements of financial position) has been measured on a 12-month expected credit loss basis and reflects the short maturities of the exposures. The Company considers that these financial assets, as well as derivative assets, have low credit risk as these are held with reputable banks and financial institutions. All other debt investments and other receivables (i.e., due from related parties, insurance claims and premiums receivable, other current accounts receivable and rental guaranty deposits) that are measured at amortized cost are considered to have low credit risk, because they have low risk of default as the issuer has a strong capacity to meet its contractual cash flow obligations in the near term.

Credit risk on these financial assets has not increased significantly since their initial recognition. Hence, the loss allowance calculated was therefore limited to 12 months expected losses. The Company has determined an insignificant amount of ECL on these financial assets because of the zero-instance of default from the counterparties and the effect of forward-looking information on macro-economic factors affecting the ability of the counterparties to settle the receivables were assessed to have an insignificant impact.

The Company sells its products primarily to retailers in the construction industry, with no specific geographic concentration of credit within the country in which the Company operates. As at March 31, 2021 and December 31, 2020, no single customer individually accounted for a significant amount of the reported amounts of sales or the balances of trade receivables.

Movements in the Allowance for Impairment Losses on Trade Receivables

Changes in the allowance for impairment losses for the three-month period ended March 31, 2021 and for the year ended December 31, 2020 are as follows:

	2021	2020
Balance at beginning of period	P 26,728	23,757
Charged to selling expenses	357	6,206
Write-off of trade receivables	-	(3,235)
Allowance for impairment losses at end of period.....	P 27,085	26,728

Foreign Currency Risk

Foreign currency risk is the risk that the fair value of the future cash flows of a financial instrument will fluctuate in relation to changes in exchange rates. The Company’s exposure to the risk of changes in foreign exchange rates relates to its operational and financing activities. The objective of foreign currency risk management is to manage and control exposures within acceptable parameters while optimizing the return. The Company’s revenue and costs are generated and settled mainly in Philippine Peso. For the three months ended March 31, 2021 and as at December 31, 2020 approximately less than 5% of the Company’s net sales, were generated in U.S. dollars.

The Company had an exposure arising from the dollar-denominated financial obligations as compared to the currency in which the majority of the Company’s revenues are generated. The Company’s only revenue denominated in U.S. dollars to cover such dollar-denominated obligations are those generated by exports. As at March 31, 2021 and

December 31, 2020, the Company has not implemented any derivative financing hedging strategy to address this foreign currency risk.

Foreign exchange fluctuations occur when any member of the Company incur monetary assets and liabilities in a currency different from its functional currency. These translation gains and losses are recognized in the condensed consolidated interim statements of profit or loss and other comprehensive income.

As at March 31, 2021 and December 31, 2020, a summary of the quantitative information of the exposure of the Company due to foreign currencies is provided to the top management on the basis of its risk management policy as follows:

Sensitivity Analysis on Foreign Currency Risk

The following table demonstrates the sensitivity to a reasonably possible change in various foreign currencies, with all other variables held constant, of the Company's profit (loss) before income tax and equity for the three-month period ended March 31, 2021 and for the year ended December 31, 2020:

U.S. Dollar	Strengthening (Weakening) of Philippine Peso	Effect on Earnings before Income Tax	Effect on Equity
2021	+1.06%	P18,938	P14,204

Sensitivity Analysis Pertaining to Eliminated Intragroup Balances

U.S. Dollar	Strengthening (Weakening) of Philippine Peso	Effect on Earnings before Income Tax	Effect on Equity
2021	+1.06%	P50,536	P37,902
	-1.06%	(50,536)	(37,902)
2020	+5.20%	P211,231	P147,862
	-5.20%	(211,231)	(147,862)

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will affect the Company's income or the value of its holdings of financial instruments. As at March 31, 2021 and December 31, 2020, the Company is exposed to interest rate risk primarily on the floating interest rate tranche corresponding to P4,859,085 and P5,380,072, respectively, of the long-term bank loan with BDO and short-term investments in Cemex Innovation Holding A.G. and Lomez amounting to P3,697,125 and P4,214,085 as at March 31, 2021 and December 31, 2020, respectively. The short-term investments in Lomez were transferred to Cemex Innovation Holding A.G. which bear interest at a rate equivalent to the higher of WAILRF rate minus 10 basis points and zero interest.

Sensitivity analysis on Interest Rate Risk

As at March 31, 2021 and December 31, 2020, a hypothetical 1% increase in interest rate, with all other variables held constant, the Company's profit for the three months ended March 31, 2021 and 2020, would have decreased by approximately P8,715 and P8,162, respectively. Conversely, a hypothetical 1% decrease in interest rate would have the opposite effect.

Commodity Price Risk

In the ordinary course of business, the Company is exposed to commodity price risk, including the exposure from diesel fuel prices, and expose the Company to variations in prices of the underlying commodity. The Company established specific policies oriented to obtain hedge with the objective of fixing diesel fuel prices. To hedge the price of diesel fuel, the Company has entered into a derivative commodity swap agreement in 2020. Through this contract, the Company fixed the price of diesel over a certain volume representing a portion of the estimated consumption of diesel fuel in the operations. The contract has been designated as cash flow hedges of diesel fuel consumption, and as such, changes in fair value are recognized temporarily through OCI and are recycled to profit or loss as the related diesel volumes are consumed.

The following amounts relating to items designated as hedging instruments as at March 31, 2021 and December 31, 2020 were as follows:

	March 31, 2021		December 31, 2020	
	Notional amount	Carrying amount	Notional amount	Carrying amount
Price swap transaction	P139,111	P41,484	P183,544	P24,179

Liquidity Risk

Liquidity risk is the risk that the Company will not have sufficient funds available to meet its obligations. The Company has fulfilled its operational liquidity needs primarily through its own operations and expects to continue to do so for both the short and long-term liabilities. Although cash flow from the Company's operations has historically covered its overall liquidity needs for operations, servicing debt and funding capital expenditures and acquisitions, the consolidated entities are exposed to risks from changes in foreign currency exchange rates, prices and currency controls, interest rates, inflation, governmental spending, social instability and other political, economic and/or social developments in the countries in which they operate, any one of which may materially decrease the Company's net profit and reduce cash flows from operations. Accordingly, in order to meet its liquidity needs, the Company also relies on cost-control and operating improvements to optimize capacity utilization and maximize profitability. The Company's consolidated net cash flows provided by operating activities, as presented in its unaudited condensed consolidated interim statements of cash flows, amounted to P1,321,012 and P588,216 for the three months period ended March 31, 2021 and 2020, respectively. In addition, there is no significant concentration of a specific supplier relating to the purchase of raw materials.

The following are the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements:

*Excluding government-related payables, unearned income from insurance premiums and other non-financial liabilities amounting to P764.9 million.

The interest payments on floating rate bank loans reflect market forward interest rates at the reporting date and these amounts may change as market interest rates change. Except for this financial liability, it is not expected that the cash flows included in the maturity analysis could occur significantly earlier, or at significantly different amounts.

Insurance Risk Management

As mentioned in Note 1, the Parent Company incorporated Falcon to create its own reserves and reinsure in respect of the Company's property, non-damage business interruption and political risks insurance. Falcon is expected to retain 10% of the risk in connection with property insurance and 100% of the risk in connection with earthquake and wind stop loss, non-damage business interruption and political risks insurance of the Parent Company's operating subsidiaries. As a result of these arrangements, the Company self-insures these risks to the extent of Falcon's retained liability. There can be no assurance that the reserves established by Falcon will exceed any losses in connection with the Company's self-insured risks.

In addition, the Company's insurance coverage is subject to periodic renewal. If the availability of insurance coverage is reduced significantly for any reason, the Company may become exposed to certain risks for which it is not and, in some cases could not be, insured. Moreover, if the Company's losses exceed its insurance coverage, or if the Company's losses are not covered by the insurance policies it has taken up, or if Falcon is required to pay claims to its insurer pursuant to the reinsurance arrangements, the Company may be liable to cover any shortfall or losses. The Company's insurance premiums may also increase substantially because of such claim from the Company's insurers.

The foregoing risk exposure is mitigated, through making reasonable approximation after an evaluation of reported claims in the past of the Parent Company's operating subsidiaries, by retaining only insurance risk from insurance policies in which the operating subsidiaries have low probability of incurring losses.

NOTE 15 – FAIR VALUE OF FINANCIAL ASSET AND FINANCIAL LIABILITIES

The fair values of cash and cash equivalents, trade receivables, insurance claims and premiums receivable, amounts due from related parties, other current accounts receivable (under financial assets measured at amortized cost), trade payables, amounts due to related parties, other accounts payable and accrued expenses (under financial liabilities measured at amortized cost) reasonably approximate their carrying amounts considering the short-term maturities of these financial instruments.

As at March 31, 2021 and December 31, 2020, the carrying amounts and fair values of financial assets and liabilities are as follow:

	<u>March 31, 2021</u>		<u>December 31, 2020</u>	
	<u>Carrying amount</u>	<u>Fair value</u>	<u>Carrying amount</u>	<u>Fair value</u>
<i><u>Financial assets measured at amortized cost</u></i>				
Long-term time and rental guaranty deposits	P 562,544	562,544	P 531,555	531,555
<i><u>Financial assets at fair value (hedging instrument)</u></i>				
Derivative asset	P 41,484	41,484	P 24,039	24,039
	P 604,028	604,028	P 555,594	555,594
<i><u>Financial liabilities measured at amortized cost</u></i>				
Bank loan	P 10,178,226	10,465,218	P 10,706,765	11,411,683
Payable to a related party	-	-	-	-
	P 10,178,226	10,465,218	P 10,706,765	11,411,683

The fair values disclosed for the financial assets and financial liabilities above are categorized under level 2 of fair value hierarchy.

The estimated fair value of the Company's long-term time and rental guaranty deposits, bank loan and long-term payable to a related party are either based on estimated market prices for such or similar instruments, considering interest rates currently available for the Company to negotiate debt with the same maturities, or determined by

discounting future cash flows using market-based interest rates currently available to the Company. The estimated fair value of the derivative asset is determined by measuring the effect of the future economic variables according to the yield curve shown in the market as at the reporting date.

NOTE 17 – CONTINGENCIES FROM LEGAL PROCEEDINGS

As at March 31, 2021, the Company is involved in various legal proceedings of minor impact that have arisen in the ordinary course of business. These proceedings involve: 1) national and local tax assessments; 2) labor claims; and 3) other diverse civil actions. The Company considers that in those instances in which obligations have been incurred, the Company has accrued adequate provisions to cover the related risks. The Company believes these matters will be resolved without any significant effect on its business, consolidated financial position or consolidated financial performance. In addition, in relation to ongoing legal proceedings, the Company is able to make a reasonable estimate of the expected loss or range of possible loss, as well as disclose any provision accrued for such loss. However, for a limited number of ongoing proceedings, the Company may not be able to make a reasonable estimate of the expected loss or range of possible loss or may be able to do so but believes that disclosure of such information on a case-by-case basis would seriously prejudice Company's position in the ongoing legal proceedings or in any related settlement discussions. Accordingly, in these cases, the Company has disclosed qualitative information with respect to the nature and characteristics of the contingency but has not disclosed the estimate of the range of potential loss.

NOTE 16 – RELEVANT INFORMATION REGARDING THE IMPACT OF THE LANDSLIDE

On September 20, 2018, a landslide occurred in Sitio Sindulan, Barangay Tina-an, Naga City, Cebu, Philippines (the "Landslide"), a site located within an area covered by the mining rights of ALQC who is a principal raw material supplier of APO. The Parent Company does not own any equity stake (directly or indirectly) in ALQC or its parent company, Impact Assets Corporation. CASEC, an indirect subsidiary of CEMEX, S.A.B. de C.V. which is a majority shareholder of the Parent Company, owns a minority 40% stake in Impact Assets Corporation.

The Landslide prompted local and national authorities to order the suspension of the mining operations of ALQC¹. Business continuity plans were put in place by APO and implemented to address the disruption in the supply arrangement with ALQC. As a result, the Company incurred incremental costs of raw materials in production and other expenses. In addition, the Company incurred losses amounting to P83,844 on inventories which were buried during the incident. However, substantial portion of such incremental costs and losses were offset by the insurance claims recognized amounting to P662,210. Other losses as result of the landslide amounting to P71,716 were not covered by the insurance. Such loss was recognized under "Other income (expenses) - net" account in the statements of comprehensive income in 2018. As at March 31, 2021 and December 31, 2020, the outstanding claims amounted to nil and P1,126, respectively.

In 2019, the Company received the outstanding amount of its insurance claims amounting to P447,053 which includes the additional claims made during the year amounting to P123,136. The collection and recognition of additional insurance claims were offset against "Costs of Sales" account in the consolidated statements of comprehensive income for the year ended December 31, 2019.

On November 19, 2018, the Parent Company and APO Cement were served summons concerning an environmental class action lawsuit filed by 40 individuals and one legal entity (on behalf of 8,000 individuals allegedly affected by the Landslide) at the Regional Trial Court of Talisay, Cebu², against the Parent Company, APO Cement, ALQC, the Mines and Geosciences Bureau of the Department of Environment and Natural Resources, the City Government of Naga, and the Province of Cebu, for "Restitution of Damage of the Natural and Human Environment, Application for the Issuance of Environmental Protection Order against Quarry Operations in Cebu Island with Prayer for Temporary Protection Order, Writ of Continuing Mandamus for Determination of the Carrying Capacity of Cebu Island and Rehabilitation and Restoration of the Damaged Ecosystems". In the complaint, among other allegations, plaintiffs (i) claim that the Naga Landslide occurred as a result of the defendants' gross negligence; and (ii) seek, among other reliefs, (a) monetary damages in the amount of approximately 4.3 billion Philippine Pesos, (b) the establishment of a 500 million Philippine Pesos rehabilitation fund, and (c) the issuance of a Temporary Environment Protection Order against ALQC while the case is still pending. In the complaint, ALQC, APO and the Parent Company are made solidarily liable for payment of monetary damages and establishment of a rehabilitation fund.

Among other defenses and based on a report by the Mines and Geosciences Bureau of the Department of Environment and Natural Resources, the Parent Company, ALQC and APO hold the position that the landslide occurred due to natural causes and deny liability, fault and negligence. In the event a final adverse resolution is issued in this matter,

plaintiffs will have the option to proceed against any one of ALQC, APO or the Parent Company for satisfaction of the entirety of the potential judgement award, without the need to proceed against any other private defendant beforehand. Thus, ALQC's, APO's or the Parent Company's assets alone could be exposed to execution proceedings.

In an order dated August 16, 2019, the Regional Trial Court denied plaintiffs' Application for Temporary Environment Protection Order. By denying such application, the Regional Trial Court found that the applicants did not sufficiently establish that they will suffer grave injustice and irreparable injury by the continued operations of ALQC while the proceedings are pending. Plaintiffs moved for reconsideration, but the Court also denied plaintiffs' motion in an Order dated September 30, 2019. Plaintiffs did not appeal this ruling, which became final as of December 5, 2020.

In an order dated September 30, 2019, the Regional Trial Court partially granted the affirmative defenses of the private defendants and ruled, among others, that the subject case against the Parent Company and APO is dismissed for failure to state a cause of action. The court also ruled that: (i) the 22 plaintiffs who failed to sign the verification and certification against forum shopping are dropped as party-plaintiffs; (ii) the subject case is not a proper class suit, and that the remaining 17 plaintiffs can only sue for their respective claims, but not as representatives of the more than 8,000 alleged victims of the landslide incident; (iii) plaintiffs' cause of action against ALQC for violation of Section 19(a) of Republic Act No. 10121 is dismissed; (iv) there is a misjoinder of causes of action between the environmental suit and the damage suit; and (v) the damage suit of the remaining plaintiffs will proceed separately upon payment of the required docket fees within 30 days from receipt of order, otherwise, the case for damages will be dismissed. The plaintiffs filed a motion for reconsideration of the court's order dated September 30, 2019, which remains pending as of the date of this report. Meanwhile, during the hearing of plaintiffs' motion for reconsideration on September 11, 2020, the Province of Cebu was officially dropped as a party-defendant in the case.

Local and national authorities have allowed ALQC to resume its mining operations in the affected areas. As at March 31, 2021, at this stage of the overall proceedings and considering all possible defenses that could be available, while the Company cannot assess with certainty the likelihood of an adverse result in the overall proceedings, the Company believes that a final adverse resolution in the overall proceeding is not probable, and, in turn, because the Company is not able to assess the outcome of the reconsiderations filed against the court's order, the Company is not able to determine if a final adverse resolution, if any, would have a material adverse impact on the Company's consolidated results of operations, liquidity and financial condition.

¹ Since third quarter of 2020, local and national authorities have allowed ALQC to resume its mining operations in the affected areas.

² The records of the case were subsequently transferred to the Regional Trial Court of Cebu City Branch 23.

NOTE 17 – IMPACTS OF COVID-19

On March 11, 2020, the World Health Organization declared a pandemic the outbreak of the Coronavirus Disease 2019 (the "COVID-19 pandemic"), due to its rapid spread throughout the world, having affected as of such date more than 150 countries. In response to that, on March 16, 2020, the President of the Philippines issued Proclamation No. 929 declaring a state of calamity throughout the Philippines due to the COVID-19 Pandemic which resulted in the imposition of an Enhanced Community Quarantine ("ECQ") throughout Luzon starting midnight of March 16, 2020. The President announced several social distancing measures which were implemented including extension of suspension of classes in all levels in Metro Manila, prohibition of mass gatherings or events, imposition of community quarantine measures as necessary, restriction of mass public transport system (MRT, LRT, etc.), and suspension of land, domestic air and domestic sea travel to and from Metro Manila beginning March 16, 2020. On March 26, 2020, the Governor of Cebu Province announced the implementation of ECQ measures for the entire island of Cebu, effective March 30, 2020.

Beginning May 16, 2020, several cities and provinces (which included Metro Manila and Cebu City) were placed under modified enhanced community quarantine, while other cities and provinces (which included the Province of Rizal and other cities in the Province of Cebu) were placed under general community quarantine. As of the second half of August 2020, Metro Manila and Cebu City, as well as the Municipalities of Minglanilla and Consolacion in the Province of Cebu, were among the areas which shifted to general community quarantine. On September 1, 2020, Cebu City, the Province of Cebu, and Rizal Province already shifted to modified general community quarantine with lesser quarantine restrictions. Effective on March 29, 2021, NCR, as well as 4 other provinces (i.e., Laguna, Rizal, Cavite and Bulacan), were placed under ECQ until April 5, 2021 due to the surge in COVID-19 cases in the Philippines. On April 3, 2021, the ECQ status was further extended to April 11, 2021 and, thereafter, revised to modified enhanced community quarantine until May 14, 2021.

Considering the implementation of the first ECQ in Luzon, Solid temporarily suspended the production and delivery of cement products in the third week of March 2020 and has resumed operations on May 2020 while in compliance with government regulations. APO has remained operational while also complying with all government regulations and the necessary hygiene and safety measures.

The implications negatively affected the Company's results of operations, mostly during the second quarter of 2020. During the year ended December 31, 2020, consolidated revenues decreased by 16% against the previous year, caused mainly by the decrease in sales volumes from reduced operations. This decrease in revenues was partially offset by a reduction in cost of sales and operating costs and expenses, which decreased 17% and 14%, respectively, during the same period, because of reduced operations but also considering the strict control of expenditures. For the period ended March 31, 2021 and December 31, 2020, additional expenses were incurred by the Company associated with measures designed to address the adverse impact of COVID-19 pandemic amounting to P6,776 and P49,766, respectively. These additional expenses were presented under "Operating expenses" and "Other income (expenses) - net" account in the condensed consolidated interim statements of profit or loss and other comprehensive income for period ended March 31, 2021 and December 31, 2020, respectively.

Even prior to the imposition of ECQ, the Company implemented, and has continued to implement, strict hygiene protocols in all its operations and modified its manufacturing, sales, and delivery processes to implement physical distancing, so as to protect the health and safety of its employees and their families, customers and suppliers; and drastically reduce the possibility of contagion of the COVID-19 pandemic. The Company has undertaken and continues to explore temporary measures to address the adverse impact of the COVID-19 pandemic on its workforce and operations with the objective of re-aligning the organization's resources with the evolving conditions in the different markets in which the Company operates. The Company will continue to focus its efforts on managing the impact of the COVID-19 pandemic on its production, commercial, and financial activities. It will continue to carefully monitor this overall situation and expects to take additional steps, as could be required.

The degree to which the COVID-19 pandemic continues to affect the Company's liquidity, financial condition and results of operations will depend on future developments, some of which are highly uncertain and cannot be predicted, including, but not limited to, the duration and continued spread of the outbreak, its severity, the actions to contain the virus or treat its impact, and to how fast and to which extent the economic and operational conditions can return, within a new normality with limited activities, until medicines, vaccines and other treatments against the virus are authorized, produced, distributed and accessible to the general public in the Philippines, and also to a degree, how much of the population is willing to receive the vaccines.

In addition to risks to the health and safety of the Company's employees, customers, contractors and suppliers, the impact of pandemics, epidemics or outbreaks of infectious diseases may result in governmental measures to be implemented to attempt to contain and mitigate the effects of the disease. These measures, and the adverse effects of the pandemic, epidemic or outbreaks of infectious diseases may result, in: (i) temporary restrictions on, or suspended access to, or shutdown, or suspension or the halt of, the Company's manufacturing plants and other facilities; (ii) staffing shortages, production slowdowns or stoppages and disruptions in our delivery systems; (iii) disruptions or delays in our supply chains, including shortages of materials, products and services on which the Company and its businesses depend; (iv) reduced availability of land and sea transport methods to deliver our products, including labor shortages, logistics constraints and increased border controls or closures; (v) increased cost of materials, products and services on which the Company and its businesses depend; (vi) reduced investor confidence and consumer spending where the Company operates; (vii) a general slowdown in economic activity, including construction, and a decrease in demand for the Company's products and industry demand generally; (viii) constraints on the availability of financing in the financial markets, if available at all, including on access to credit lines and working capital facilities from financial institutions; or (ix) the Company's inability to, if required, refinance our existing indebtedness on desired terms, if at all.

The Company dealt with liquidity risks during the deepest phase of suspension of activities within the COVID-19 pandemic, maintaining sufficient cash and meeting current maturing obligations. Among the initiatives taken by the Company to manage the impact of COVID-19 were: (i) the optimization of plant production and inventory levels, (ii) the suspension, deferment or reduction in capital expenditures and budgeted operating expenses (including sales and administration expenses), and installing other cost control measures to reduce discretionary expenses and capital expenditures, (iii) implementation of changes in work-deployment schedules, (iv) further emphasis on the use of the CEMEX Go platform for a digital and low-touch experience for customers, and (v) enabled additional online channels to promote engagement, manage communications and facilitate transactions with customers.

The Company projects that it will continue to generate sufficient cash flows from operations, which would enable the Company to meet its currently maturing obligations.

NOTE 18 – INCOME TAXES

The components of income tax expense are as follow:

	March 31, 2021	March 31, 2020

¹These adjustments to the current income tax and deferred income tax considers the effect of the CREATE Act.

CREATE

On March 26, 2021, the President of the Philippines has approved the CREATE Act or the Republic Act No. 11534 and took effect on April 11, 2021, with nine (9) provisions vetoed by the President. Below are the salient features of the Act that are relevant to the Company:

- a) Corporate income tax rate is reduced from 30% to 20% for domestic corporations with net taxable income not exceeding P5,000 and with total assets not exceeding P100,000. All other domestic corporations and resident foreign corporations will be subject to 25% income tax. Said reductions are effective July 1, 2020.
- b) Minimum corporate income tax rate is reduced from 2% to 1% effective July 1, 2020 to June 30, 2023.
- c) The imposition of improperly accumulated earnings tax has been repealed.
- d) Definition of reorganization for purposes of applying the tax-free exchange provision under Section 40(C)(2) is expanded. Prior BIR ruling or confirmation shall not be required for purposes of availing the tax exemption of the exchange.
- e) VAT exemption on importation and VAT zero-rating on local purchases shall only apply to goods and services directly and exclusively used in the registered project or activity by a registered business enterprise (RBE).
- f) For investments prior to effectivity of CREATE: RBEs granted only an ITH - continue with the availment of the ITH for the remaining period of the ITH. RBEs granted an ITH + 5% Gross Income Tax (GIT) or currently enjoying 5% GIT - allowed to avail of the 5% GIT for 10 years.

The corporate income tax of the Parent Company and its subsidiaries domiciled in the Philippines will be lowered from 30% to 25% for large corporations, and from 30% to 20% for small and medium corporations, effective July 1, 2020.
